## European Union provides close to 500 000 euro in support of the Bosnia and Herzegovina Directorate for Civil Aviation

'For immediate release'

Through its project of Technical Assistance to the Bosnia and Herzegovina Directorate for Civil Aviation (BHDCA), the European Union will contribute to ensuring smooth and efficient movement of goods and passengers between BiH and the European Union member states. The Technical Assistance is provided by the Hungarian company AAM Management Information Consulting Ltd., in consortium with HungaroControl Hungarian Air Navigation Service Pte. Ltd. Co. and the Hungarian National Transport Authority.

The purpose of this 482 000 euro (approx. 942 710 convertible mark) worth project is to provide continuous advisory assistance to the management of the BHDCA in establishing pre-conditions for implementation of the institution-related aspects of the Air Traffic Management (ATM) Strategy. In particular:

- Completion of the separation of Regulatory functions from Air Navigation Services (ANS) functions;
- Establishment of Bosnia and Herzegovina Air Navigation Services Provider (BHANSPP) to integrate the functions of the Air Navigation Services (ANS) into an independent entity;
- Finalization of the transformation of the BHDCA and the Entity Civil Aviation Directorates (FedCAD and RSCAD) into the Civil Aviation Authority (CAA) in order to enable retaining its independent regulatory function only.

Upon completion of this project, the following results are to be achieved:

- The BHDCA and the Entity CADs shall be transformed into the new Civil Aviation Authority (CAA) to retain only its regulatory function;
- A functional and independent BH Air Navigation Services Provider (BHANSPP) shall be established, as a result of the transformation process.

'End'
